Mission of the Paul J. Ciener  
Botanical Garden:

A Place of Unique Beauty Seeking to  
Inspire, Enlighten, and Connect  
People of All Ages to the World of  
Plants, Gardening, and Horticulture.

#### ABOUT THE SOCIETY...

The Guilford Horticultural Society is an organization founded in 1983. Our purpose is to provide opportunities for garden enthusiasts to gain greater knowledge of plants, their culture and usage, and to network with others who share these interests.

Monthly Meetings are held at the Greensboro Natural Science Center, 4301 Lawndale Drive, Greensboro, NC, at 7:15 pm on the third Monday of each month, September through June (except December). In observance of Martin Luther King Jr. holiday, the January meeting has been moved to the second Monday. For additional information or to join the Society, visit our website:

[www.guilfordhorticulturalsociety.org](http://www.guilfordhorticulturalsociety.org)

#### ABOUT THE SYMPOSIUM...

The Greensboro Horticultural Society is holding its 34th annual Symposium. This year, we will bring you outstanding speakers, exhibits, plant sales, and abundant door prizes to get you excited about “Roots and Shoots”.

Jeanette Windham began the GHS as a service to all of Guilford County. Soon after its inception, an annual symposium was instituted to further the aims of the society: education and the sharing of the newest advances in gardening. More than three decades later, the Society and the Symposium are still fulfilling that goal.

## Lectures at a Glance...

**The Inspired Plantsmen: Nature-Inspired Approach to Plant Selection and Composition**, Join Thomas Rainer and discover how plants fit together in nature and how to create landscapes that are resilient, beautiful, and diverse. **-and-**

**Hope: An Exploration of the Plant Communities and Designers that Give Me Inspiration**, learn lessons about wild plant communities whose rich patterns and structure offer compositional allegories for designed landscapes. Thomas will include innovative ideas with insight into making them work in the Piedmont.

**Treasures for Shady and Not-So-Shady Gardens**, John Lonsdale will share about his experience with unusual and special shade and sun-loving plants which he grows in his garden in Exton, PA. Cyclamen, Trillium and some of the more uncommon woodland plants will be showcased, together with sun-lovers which thrive in the drier parts of the garden, and others which relish life in the bog!

**Elizabeth Lawrence in the 21st Century**, Doug Ruhren will tell us why famous local author Elizabeth Lawrence's writings are still essential reading for those gardening in the South. Her first book, "A Southern Garden", was written while living in Raleigh, NC. Her subsequently published works were written from her second garden in Charlotte, NC. Her writings continue to inspire, inform and delight readers.
